PROFESSIONAL SUMMARY

Motivated junior front-end developer with a solid foundation in modern web technologies — **HTML, CSS, JavaScript and TypeScript** — alongside hands-on experience building real applications with **React and Node.js**. Designed and developed complete projects ranging from a full accounting / ERP system to an **AI-powered task manager**. A fast, self-driven learner with strong communication and interpersonal skills, seeking a front-end / web development role to contribute to real products while continuing to grow technically.

TECHNICAL SKILLS

Front-End: HTML5, CSS3, JavaScript (ES6+), Responsive Web Design

Frameworks & Libraries: React, TypeScript

Back-End: Node.js, REST APIs

Other: Networking Fundamentals, AI Integration, Git & GitHub

PROJECTS

Nexora ERP — Accounting & Business Management Application

- Designed and built a complete ERP / accounting application covering core bookkeeping and business-management workflows.
- Focused on a clean, user-friendly interface and a smooth end-to-end user experience.
- **Tech Stack:** JavaScript, HTML, CSS, React **Code:** github.com/negm-7-4/nexora-erp

AI-Powered To-Do List — Smart Task Manager

- Developed an advanced task-management application enhanced with AI to help users organise and prioritise their work.
- Built a responsive, intuitive interface with a focus on usability and a modern look and feel.
- **Tech Stack:** JavaScript, React, AI Integration

Weighbridge System — Vehicle / Truck Weighing & Records Management

- Built a weighbridge (truck-scale) application to weigh vehicles and record their weights for daily operations.
- Maintains an organised log of weighing entries through a simple, practical interface.
- **Tech Stack:** JavaScript, HTML, CSS
